Lost in the Solar System

SCHOLASTIC

WHAT IS THE SOLAR SYSTEM?

by John

The solar system is the Sun and all the bodies that orbit around it—the planets, their moons, the asteroids, comets, and other chunks of rock, ice and dust.

It was trip day again in Ms. Frizzle's class. Everyone was excited. We were going to the planetarium to see a sky show about the solar system.

CLASS, AN ORBIT IS THE PATH OF A PLANET OR OTHER OBJECT AROUND THE SUN.

I KNEW THAT.
I GET ALL A'S
IN SCHOOL.

I HAVE FIVE
COMPUTERS.

MY CLASS WENT TO
THE PLANETARIUM
LAST YEAR.

WHAT A
SHOW-OFF.

THANKS FOR
INVITING YOUR
COUSIN, ARNOLD.

SHE'S ACTUALLY
NICE WHEN YOU
GET TO KNOW HER.

Arnold's cousin Janet was
visiting our class for the day.
"I know all of you
will be nice to our guest," said the Friz.

MY SCHOOL IS TALLER
THAN YOUR SCHOOL.

OUR SWINGS ARE BETTER
THAN YOUR SWINGS.

MY TEACHER IS WEIRDER
THAN YOUR TEACHER.

We tried to be nice to Janet.
We really did.

As we got on the school bus,
we told her that Ms. Frizzle
is the weirdest teacher in school.
But Janet wasn't interested.
She wanted to tell us about herself.

WHO WANTS A TALL
SCHOOL?
