

Animals at Home

DAVID LOCK

What is your home like?

Is it cozy and dry?

Animal homes are all shapes
and sizes.

They keep animals and
their babies safe and warm.

hermit crab shell

Paper wasps collect wood
and chew it into a pulp.
The wasps then use this pulp
to make their nest.

The queen
wasp lays
her eggs inside
the nest's
six-sided cells.

Beavers build their homes by weaving sticks together with their feet.

Their large homes are called lodges.

The beavers get in and out of the lodge through an underwater entrance.

Where do animals live?
Find out about the different shapes
and sizes of their homes.

DK READERS

Stunning photographs combine
with lively illustrations and engaging,
age-appropriate stories in DK READERS, a multilevel
reading program guaranteed to capture children's interest
while developing their reading skills and general knowledge.

	Learning to read	<ul style="list-style-type: none"> ● High-frequency words ● Picture word strips, picture glossary, and simple index ● Labels to introduce and reinforce vocabulary ● High level of adult participation helpful
