Introduction 4

Inference

Mini-Lesson 1: Inference Charades 7	Define inference and infer actions or feeling by playing charades
Mini-Lesson 2: The KIS Strategy 11	Use a mnemonic strategy to make and support inferences about short passages
Mini-Lesson 3: Ice Cream Inferences 17	Make inferences about fables by evaluating facts, opinions from others, and background knowledge
Mini-Lesson 4: The Reasons Behind Our Answers 21	Make inferences about a passage and quotations and identify reasons for having made those inferences
Mini-Lesson 5: Test-Taking Format 26	"Read between the lines" to answer inference questions on sample test passages
Inference Final Project: Putting It All Together: Igniting Idioms Game 31	Relate idioms to making inferences by creating a board game

Cause and Effect

Mini-Lesson 1: The Relationship Between Cause and Effect 38	Define cause-and-effect and organize relationships on a T-chart
Mini-Lesson 2: Graphing Cause-and-Effect Relationships 41	Use five different graphic organizers to explore cause-and-effect relationships
Mini-Lesson 3: Ripple Effect Graphic Organizer 48	Understand that one event can lead to multiple causes and effects by using a graphic organizer to map out a current event
Mini-Lesson 4: Writing a Cause-and-Effect Story 51	Write a story with a sequence of cause-and-effect events that are part of a chain reaction
Mini-Lesson 5: Fiction Flip Books 53	Write five main cause-and-effect relationships to use as the basis for a flip book
Mini-Lesson 6: Test-Taking Format 55	Identify causes and effects in sample test passages
Cause-and-Effect Final Project: Putting It All Together: CHAINS 59	Analyze the cause-and-effect relationship of an event by using the CHAINS research method
