Fact or Opinion Reading Comprehension Practice Cards provide an easy way to help students develop a critical reading skill. Each card in this set has been leveled for a 3.5–5.0 reading level.

Fact or Opinion cards ask students to determine whether a passage states a fact or an opinion, or ask them to identify a fact or opinion out of three possible choices.

You may want to introduce the set of cards to the students by making an overhead transparency of a few cards to work through as a class. Once students become familiar with the cards, they can use them independently as take-home practice, in a reading center, or as reading and responding practice in small groups. Each card features the answer on the reverse side for easy self-checking.

Continual practice with Fact or Opinion cards reinforces a reading comprehension skill essential for all areas of study.
