Reading for Detail Reading Comprehension Practice Cards provide an easy way to help students develop a critical reading skill. Each card in this set has been leveled for a 5.0–6.5 reading level.

The Reading for Detail cards consist of a leveled reading passage and Who, What, Where, and When questions asking students to choose from multiple choice answers.

You may want to introduce the set of cards to the students by making an overhead transparency of a few cards to work through as a class. Once students become familiar with the cards, they can use them independently as take-home practice, in a reading center, or as reading and responding practice in small groups. Each card features the answer on the reverse for easy self-checking.

Continual practice with Reading for Detail cards reinforces a reading comprehension skill essential for all areas of study.
