# Legend of the lost

An amazing 1,500 people have vanished in the Bermuda Triangle over the last fifty years. Without doubt, it is the strangest area of water in the world.

*Bermuda Triangle*

The heart of the Triangle lies between Florida, Bermuda, and Puerto Rico.

*1881:  
a ship is  
found drifting  
with no one  
onboard. What  
has happened  
to the crew?*

*How can  
the five  
navy  
aircraft  
of Flight 19  
just vanish?*

Captain Gould put Morgan in charge of a crew to sail the ghost ship back to the port of St. John's in Newfoundland. It was a task that Morgan did not relish, even if he got a generous slice of the salvage fee once they got to port. He didn't want command of a ghost ship. It was bad luck.

The two ships set sail side by side, heading west.

Behind the *Good News*, a bank of thick, glowing fog covered the cargo barge. But there was no other fog anywhere else on the sea!

Where the fog touched the surface of the ocean, the water was choppy and rough, but Captain Henry could not understand what could be causing it.

Five planes vanish into the blue. Two crews disappear from a ship. Strange things happen when you enter the Bermuda Triangle...
